Dramatic Savings Achieved

It's back to basics! By bringing selected engineering projects in-house, significant cost savings are being achieved. Having the precise mix of talent and experience are sometimes a challenge. Project Partners supplemental engineering personnel is the answer. True project savings coupled with an experience project team is a WIN! Dramatic cost savings come from our significantly lower billing rates. As a result, your organization can receive 50% more engineering hours at less than typical consultant rates.

Project Partners Provides 50% More Engineering Hours

\$150,000 Savings: A recent example of can be found with one of our clients. When consultants' estimated that the design of a pipeline replacement project would cost \$250k to \$300k, the city elected to bring the project in-house. Utilizing a Project Partners' staff engineer, they completed the project for \$150k.
